## *Nature Photography by Matt Jones*

**January 17 – March 20, 2019**

Morrison Exhibit Space,  
Near Clinic 1D,  
Duke Clinics Building

Matt Jones took up photography eight years ago as a way to express his creativity.

Matt works with Concierge Services at Duke Health, and has been with Duke for 23 years.

In December 2015, Matt was diagnosed with end stage liver disease and underwent a liver transplant at Duke Health in December 2016. Now, he says he feels like he's in his early 30's again.

Matt most enjoys capturing images of nature, landscapes and sunsets. He hopes his photographs on display at the Duke Clinics bring enjoyment to others going through similar circumstances.

**Purchases of photographs on display can be purchased by cash or check. Please contact Jennifer Collins-Mancour for further information. Call 919-684-6124 or email, [jennifer.collins3@duke.edu](mailto:jennifer.collins3@duke.edu)**
